

CITY TRASH TRUCKS ON BALBOA (NORTH OF RINALDI) – MONDAYS ONLY

**NO OTHER WASTE COMPANY TRASH TRUCKS NOR VEHICLES OF ANY SORT
OVER 5000 LB IS PERMITTED**

Mr. William Reese, Superintendent of the Valley Collection Division, Bureau of Sanitation, agreed that the City's curbside side-loading trash trucks **should only be present on Mondays for local trash collection; unless special circumstances arise that require access to the area by means of Balboa Blvd. This would be by permission of Sanitation management.**

The City's trucks **should not be using Balboa Boulevard on any other day** except for special collections as noted below. These vehicles are easy to recognize because unlike the side-loading curbside pickup trash trucks, they have either a front fork-loader for picking up metal dumpster bins or an open rear-compactor cavity for dumping large items into them.

Vehicles permitted to use Balboa all week:

016 PARK SERVICE

091 PARK SERVICE

916 PARK SERVICE

27132 BULKY ITEMS / WHITE GOODS PICKUP

27175 BULKY ITEMS / WHITE GOODS PICKUP

Alternate (FRONT LOADING) replacement vehicles that will be used if any of the above are out of service:

008, 017, 093, 097, 907, 914, 915, 919, 921, 922, 927

ALL OTHERS SHOULD BE REPORTED

To report City trash trucks which violate the "Monday Only" prohibition, the City asks us to please have the three digit number located on the back or sides of the truck (or the license plate number), and to call 1-800-773-2489. Press "0" then tell the operator that you want to file a report of a truck illegally using Balboa Boulevard north of Rinaldi on a non-trash day. Give them the number, time, and date, and if you would like a call back you must ask them for a return call (recommended).

All other waste company's trucks (e.g. Waste Management, Republic, Crown Disposal, Athens etc) that illegally shortcut to the landfill should also have the same information taken, and the reported to their respective companies.
