SCL Tonnage Exceedance (1).pdf (76 KB)

November Monthly LEA Report 20...pdf (2.6 MB)

Dear Sirs:

It appears from the attached 2022 Monthly LEA Report (MRMP 46, 96, 119 & 125) Sunshine Canyon Landfill, SWFP No. 19-AA-2000 under the November SCL Customer Daily Summary, that the landfill has exceeded the 12,100 tons per day at least 7 times since the letter of November 15 from County Public Works which stated that:

**As these activities are not permitted under the Landfill's CUP and IMP, Republic must immediately cease the violation of the 12,100 tons per day permitted daily tonnage capacity and come into compliance with Condition 21 of the CUP, Part II of the IMP, and Public Works' June 15, 2021, requirements. In the event of another violation, Public Works will proceed to refer the matter to the Department of Regional Planning for possible enforcement actions, including issuance of a Notice of Violation. The Landfill cannot exceed 12,100 tons per day without the approval of a modified CUP.**

We are not aware of the approval of any modified CUP, and we would expect that Public Works will ensure that these violations will stop forthwith and will refer the matter to the Department of Regional Planning for enforcement action and for issuance of NOVs.

Regards,

Wayde Hunter  
Chair, SCL-CAC

Subject: Sunshine Canyon City/County Landfill - Permitted Tonnage Exceedances and Prior Authorization of Clean Soil Importation

Good Afternoon,

Please see the attached letter with enclosure from Public Works to Republic Services regarding the permitted tonnages and authorization of clean soil importation to Sunshine Canyon Landfill dated November 15, 2022.

Thank you,

Michael Harmon, P.E.  
Associate Civil Engineer  
Los Angeles County Public Works  
Office: (626) 458-5934
