Hello Wayde,

I want to let the SCL CAC know that Republic Services has submitted a Wet Weather Plan to the LEA detailing how the site is preparing for this upcoming rainy season. We are currently in the review process. After a quick initial review, I think that they will need to provide additional information and clarification to the LEA. I have my staff going through a detail review right now and will provide instructions to Republic Services by the end of next week. A copy of this plan is available on the SCL LEA website.

Republic Services has also submitted an application for the 5-year permit review. The LEA is required to complete our review and issue a permit review report by the last week of December. A copy of the application is available on the SCL LEA website.

Just wanted to make sure that the SCL CAC was in the loop on the process.

David
