

May 15, 2024

Ms. Dee Lugo
SCL – LEA Program Manager
5050 Commerce Drive
Baldwin Park, CA 91706

**Subject: April 2024 Monthly LEA Report (MRMP 46, 96, 119 & 125)
Sunshine Canyon Landfill, SWFP No. 19-AA-2000**

Ms. Dee Lugo,

Pursuant to the self-monitoring report program requirements detailed on pages 3-4 of the Sunshine Canyon Landfill (SCL) Solid Waste Facilities Permit (SWFP), the following information is provided to the LEA for the month of April 2024.

Condition 16.a. – Types & Quantities of Non-Hazardous Waste Received

The attached copy of the monthly activity report includes a daily and weekly breakdown of waste tonnages received on site.

Condition 16.b.. MRMP 91, Q-B.5.b – Number and Types of Vehicles Facility is Using

The attached copy of the monthly activity report includes the type and number of vehicles that we use on the facility on a daily and weekly basis.

Condition 16.c. – Results of the Hazardous Waste Load Checking Program

The types and quantities of hazardous waste and other prohibited wastes found in the waste stream is outlined below. All prohibited wastes are removed from the disposal area, quarantined in a designated location, and disposed in accordance with applicable requirements. The following is a list of prohibited wastes found during the month:

Prohibited Waste	Quantity	Units	Disposition
Paint Related	9	Gallon(s)	Hazardous waste TSDF
Oil Related	5	Quart(s)	Hazardous waste TSDF
Batteries	17	Each	Hazardous waste TSDF or E-waste Recycler
Electronics	336	Each	E-waste Recycler
Construction and other Chemical Compounds	0	Gallon(s)	Hazardous waste TSDF

Containers with Residuals	0	Each	Hazardous waste TSDF
Aerosols	0	Each	Hazardous waste TSDF

Condition 16.d., Q-B.5.c – Reports of all Special or Unusual Occurrences

The attached copy of the Monthly Log of Special Occurrences includes a detailed description of the incident and response actions taken.

Condition 16.e., Q-C.2, IMP X.B.7 & IMP X.B.6 – Compliance Summary

There were no calls from private citizen caller complaints through the Sunshine Canyon 24-hour hotline in April 2024. A copy of the hotline call log is attached.

Condition 16.f. – Record of Receipt of Violation

SCL received 6 NOV(s) for the month of April 2024.

Condition 16.g., MRMP 34a-d – Results of Landfill Gas Monitoring & Control

The 2023 fourth quarter 1150.1 Monitoring Report was submitted to SCAQMD on February 12th, 2024.

The perimeter probes are required to be read monthly, in accordance with Rule 1150.1. The results of the monthly probe monitoring showed readings of 0% (measured as methane) with the following exceptions:

Perimeter Probe	Date Monitored	Readings %CH ₄	Notes
P222-C	4/9/2024	0.2	
P222-E	4/9/2024	0.1	
P243-A	4/25/2024	1.3	
P243-C	4/25/2024	0.8	
P244-B	4/25/2024	0.6	
P245-B	4/25/2024	0.3	
P205R-D	4/25/2024	0.3	
P218R-A	4/26/2024	0.2	

Condition MRMP 109, CUP 48 – Daily Neighborhood Litter Survey

Daily Litter Survey – April	Quantity of Bags & Other Items
Week One	18

Week Two	23
Week Three	24
Week Four	26
Week Five	6

Condition MRMP 53 – Groundwater Monitoring

The Groundwater and Waste Disposal Monitoring Report for the second Semi-Annual Monitoring Period of 2023 (RWQCB Facility Global ID No. L10006014618) was submitted on February 15th, 2024. This report will be available on the Water Board's Database, GeoTracker, at <https://geotracker.waterboards.ca.gov/>, or on Sunshine Canyon Landfill's website at www.sunshinecanyonlandfill.com.

Condition Q-C.10. d.8, CUP 77 – Alternative Fuel

For the month of April, the Fuelman Fleet Statement Report summary is provided below. A copy of the detailed Fuelman Fleet Statement Report is provided in the activity report.

Alternative Fuel – April 2024	Quantity of E-85 Fuel Used
1037.503	0.0

LEA Monthly Inspection Report

The LEA monthly inspection report for March 2024 is included. This report includes a detailed description of site observations made by the LEA. The LEA monthly inspection report for April 2024 was not provided to SCL by May 15, 2024. SCL will include it in May's 2024 LEA Report.

Should you have any questions regarding the information provided in this report please feel free to contact me directly at (661) 236-4781 or at **Ozamorano@republicservices.com**

Sincerely,

Bryan Zamorano

To whom it may concern:

This letter determines the disposition of the waste shipment which activated the radiation alarm.

Driver: Seamus McDonald or other City of LA employee

I.D. Number of truck: City of LA # 36864 / California 1211189

Date and time the truck arrived at waste disposal: 4/1/24 @ 09:11

The waste load identified above is authorized to be buried as normal waste. The authorization is for this waste load only. Dispose of the waste directly into a landfill.
Do NOT mix or transfer waste prior to disposal.

The waste load identified above was surveyed and the radioactive material was identified and taken into custody by LA County Public Health.

The remaining contents of the waste load identified above was resurveyed and found to contain no radiation above background levels and is authorized to be disposed as normal waste.

Accident

Earthquake

Explosion

Unusual and Sudden Settlement

Presence of Hazardous Waste

Injury

Flooding

Other Unusual Occurrences

Landslide

Detailed Description of Occurrence:

Thursday, 4/25/2024, at 1:56 PM Sunshine Canyon Landfill received a Radiation Load from American Transfer Station (RCS).

The load was quarantined until it was approved for burial from the LA County Department of Public Health Radiation Management Division the same day Thursday, 4/25/2024.

Actions taken to mitigate this occurrence:

The LEA was notified.

RADIATION LOAD

Date: 4/25/2024

Time: 11:16 am

Trucking Company: American Transfer Station (RCS)

Disposal Facility (Site) Inspection Report (52)
Sunshine Canyon City/County Landfill (19-AA-2000)
3/29/2024

Inspection Information

Inspected By: Sunshine Canyon Landfill **Local Inspection ID:**
Inspection Date: 3/29/2024 **Time In:**
Inspection Type: Periodic **Time Out:**
Inspector: George Kasikarin **Inspection Duration:**
Operator: Browning-Ferris Ind. Of Calif., Inc.
Received By:
Also Present (Name):

Facility/Activity Information

Enforcement Agency: Sunshine Canyon Landfill **SWIS Number:** 19-AA-2000
Jurisdiction
Facility: **Sunshine Canyon City/County Landfill**
14747 San Fernando Road, Sylmar
Sunshine LF (in Los Angeles County), CA 91342
Activity: Solid Waste Landfill
Operational Status: Active **Regulatory Status:** Permitted
Land Owners(s):
Browning-Ferris Ind. Of Calif., Inc.

The above facility was inspected for compliance with applicable sections of Division 30 of the Public Resources Code (PRC) and Title 14 and Title 27, California Code of Regulations (CCR).

Violations

27 CCR 20820 - Drainage and Erosion Control

(a) The drainage system shall be designed and maintained to:

- (1) ensure integrity of roads, structures, and gas monitoring and control systems;
- (2) prevent safety hazards; and
- (3) prevent exposure of waste.

Rainstorms continue to affect the region throughout the month of March depositing around 6.28 inches of total rain onto the landfill for the month.

Disposal Facility (Site) Inspection Report (52)
Sunshine Canyon City/County Landfill (19-AA-2000)
3/29/2024

The landfill experienced some problems with the drainage system due to the deluge of storm water, which resulted in erosions in the side of the slope and some waste being exposed primarily on the slope of CC4-Part 4B/C near the 'Switchback' section of the main haul road. Tracked-in trash were also noted across the Wet Weather Deck area, CC4-Part 2, of the landfill. After the downpour, the heavy equipment operators made some repairs to the cover, but had difficulties accessing the saturated areas of the slope to complete the repair. Throughout the month, the operator was able to work on the eroded areas when the ground was more stable for the heavy equipment to enter. However, the operator was not able to fully cover the exposed trash in this area by the end of the month. No waste from the landfill appeared to have left the site during this observation period.

The operator is to take immediate action to cover the exposed trash and repair the erosion on the slopes. As indicated in the wet weather plan, the site management is to assess the landfill and document any areas of the landfill that were damaged in the storm and provide the SCL-LEA with a report detailing the repairs necessary and anticipated completion dates.

27 CCR 20700 - Intermediate Cover

(a) Compacted earthen material of at least twelve (12) inches shall be placed on all surfaces of the fill where no additional solid waste will be deposited within 180 days to control vectors, fires, odors, blowing litter, and scavenging.

Following up from the February inspection, a few small areas of exposed trash remain along the graded slope of the new haul road that was constructed through the old City South section of the landfill. It appears that as the contractor was building the new diverted haul road, they hit a vein of old trash as they were grading through a section of the slope for the new road.

The operator removed and backfilled some exposed areas of the slope with dirt cover since the notice of violation last month. However, a few small areas of exposed trash still remain along the graded slope. The visible exposed trash are mainly old plastic pipes, films and metal rebars. The operator must immediately assess the damaged section of the intermediate cover, then properly repair, cover and compact the area with at least 12" of soil prior to the finalization and the opening of the new haul road.

Areas of Concern

27 CCR 20921 - Gas Monitoring and Control

(a) To provide for the protection of public health and safety and the environment, the operator shall ensure that landfill gas generated at a disposal site is controlled in such a manner as to satisfy the following requirements:

(1) The concentration of methane gas must not exceed 1.25 percent by volume in air within any portion of any on-site structures.

(2) The concentration of methane gas migrating from the disposal site must not exceed 5 percent by volume in air at the disposal site permitted facility boundary or an

Disposal Facility (Site) Inspection Report (52)
Sunshine Canyon City/County Landfill (19-AA-2000)
3/29/2024

alternative boundary approved in accordance with Section 20925.

The compliance perimeter gas probes on the city and the county sides were monitored during this inspection period. All perimeter probes were either non-detect for methane gas or below 1%, by volume, except for probes: 205R-D @ 3.0% and 245-B @ 2.7%. Compliance Wells #205R and #245 should be further monitored to determine if the methane gas increases came from landfill gas migration, or from natural decomposition in the native soil.

27 CCR 20810 - Vector and Bird Control

The operator shall take adequate steps to control or prevent the propagation, harborage or attraction of flies, rodents, or other vectors and to minimize bird problems.

During this observation period, there were a few times that seagulls have landed on and picked through trash on the working face with delayed responses from the operator. The falconer was seen on site during this observation period. Upon inquiry, some of the trained personnel either ran out, or did not have on one's person the pyrotechnic scare cartridges to use with their pyrotechnic launcher gun to scare the birds away.

The operators need to have the necessary bird control equipment with them to deter the seagulls and other vectors from picking through and carrying away the trash from the working face. Better coordination with the falconer is needed when the falconer is on site and is the primary bird control implementer.

27 CCR 20650 - Grading of Fill Surfaces

Covered surfaces of the disposal area shall be graded to promote lateral runoff of precipitation and to prevent ponding. Grades shall be established of sufficient slopes to account for future settlement of the fill surface.

Towards the end of this observation period, small ponds remain in the City South area. These ponds were observed in the deep ruts of the roads across the City South deck. The larger ponds in this area were already pumped out.

The covered surfaces of the disposal area must be graded to promote lateral runoff of precipitation and of sufficient slopes to prevent water accumulation and/or infiltration into any filled areas.

Inspection Report Comments

This report is a compilation of the SCL-LEA staff observations for the month of 2024 March.

Violations were noted for Drainage & Erosion Control and Intermediate Cover.

Disposal Facility (Site) Inspection Report (52)
Sunshine Canyon City/County Landfill (19-AA-2000)
3/29/2024

Rainy weather conditions were noted during the first and last week of the month. The landfill received approximately 6.28 inches of accumulated rainfall for March, according to the operator's rain gauge located on the landfill.

The spotters were directing traffic during this observation period.

The water trucks and sweepers were in use for dust control on the days that did not rain.

The portable water-atomizing cannons were in use. Misters were also in use on the perimeter fences and along the haul road for odor control.

There were adequate lighting during the hours of darkness during this observation period.

The load checks were conducted during this observation period.

The construction of the new diverted haul road near the front of the landfill continued during the drier days of this observation period. The construction did not cause significant interference with the normal traffic flow in and out of the landfill, or caused on-site safety hazards. Spotters were present when necessary and road signs were posted and visible to the drivers on the current haul road, as of this observation period.
