

May 15, 2025

Mr. Dave Thompson
SCL – LEA Program Manager
5050 Commerce Drive
Baldwin Park, CA 91706

**Subject: April 2025 Monthly LEA Report (MRMP 46, 96, 119 & 125)
Sunshine Canyon Landfill, SWFP No. 19-AA-2000**

Mr. Dave Thompson:

Pursuant to the self-monitoring report program requirements detailed on pages 3-4 of the Sunshine Canyon Landfill (SCL) Solid Waste Facilities Permit (SWFP), the following information is provided to the LEA for the month of April 2025.

Condition 16.a. – Types & Quantities of Non-Hazardous Waste Received

The attached copy of the monthly activity report includes a daily and weekly breakdown of waste tonnages received on site.

Condition 16.b., MRMP 91, Q-B.5.b – Number and Types of Vehicles Facility is Using

The attached copy of the monthly activity report includes the type and number of vehicles that we use on the facility on a daily and weekly basis.

Condition 16.c. – Results of the Hazardous Waste Load Checking Program

The types and quantities of hazardous waste and other prohibited wastes found in the waste stream is outlined below. All prohibited wastes are removed from the disposal area, quarantined in a designated location, and disposed in accordance with applicable requirements. The following is a list of prohibited wastes found during the month:

Prohibited Waste	Quantity	Units	Disposition
Paint Related	5	Gallon(s)	Hazardous waste TSDF
Oil Related	4	Quart(s)	Hazardous waste TSDF
Batteries	5	Each	Hazardous waste TSDF or E-waste Recycler
Electronics	421	Each	E-waste Recycler
Construction and other Chemical Compounds	43	Gallon(s)	Hazardous waste TSDF

Containers with Residuals	0	Each	Hazardous waste TSDF
Aerosols	204	Each	Hazardous waste TSDF

Condition 16.d., Q-B.5.c – Reports of all Special or Unusual Occurrences

The attached copy of the Monthly Log of Special Occurrences includes a detailed description of the incident and response actions taken.

Condition 16.e., Q-C.2, IMP X.B.7 & IMP X.B.6 – Compliance Summary

There were no calls from private citizen caller complaints through the Sunshine Canyon 24-hour hotline in April 2025. A copy of the hotline call log is attached.

Condition 16.f. – Record of Receipt of Violation

SCL received 7 NOV's for the month of April 2025.

Condition 16.g., MRMP 34a-d – Results of Landfill Gas Monitoring & Control

The 2025 First quarter 1150.1 Monitoring Report was submitted to SCAQMD on April 15th, 2025.

The perimeter probes are required to be read monthly, in accordance with Rule 1150.1. The results of the monthly probe monitoring showed readings of 0% (measured as methane) with the following exceptions:

Perimeter Probe	Date Monitored	Readings %CH ₄	Notes

Condition MRMP 109, CUP 48 – Daily Neighborhood Litter Survey

Daily Litter Survey – April	Quantity of Bags & Other Items
Week One	33
Week Two	35
Week Three	31
Week Four	32
Week Five	27

Condition MRMP 53 – Groundwater Monitoring

The Groundwater and Waste Disposal Monitoring Report for the Second Semi-Annual Monitoring Period of 2024 (RWQCB Facility Global ID No. L10006014618) was submitted on February 14th, 2025. This report will be available on the Water Board's Database, GeoTracker, at <https://geotracker.waterboards.ca.gov/>, or on Sunshine Canyon Landfill's website at www.sunshinecanyonlandfill.com.

Condition Q-C.10. d.8, CUP 77 – Alternative Fuel

For the month of April, the Fuelman Fleet Statement Report summary is provided below. A copy of the detailed Fuelman Fleet Statement Report is provided in the activity report.

Alternative Fuel – April 2025	Quantity of E-85 Fuel Used
1,106.282	15.387

LEA Monthly Inspection Report

The LEA Monthly Inspection Report for March is included as an attachment to this report. These reports include a detailed description of site observations made by the LEA. The LEA Monthly Inspection Report for April was not provided to SCL by May 15, 2025. SCL will include it in May's report.

Should you have any questions regarding the information provided in this report please feel free to contact me directly at (661) 236-4781 or at **Ozamorano@republicservices.com**

Sincerely,

Bryan Zamorano

--	--	---

What is a Notice of Violation?

A Notice of Violation is issued by an SCAQMD Air Quality Inspector to inform a business that a failure to comply with one or more applicable federal, state, and/or local (SCAQMD) air pollution rules and regulations or legal requirements is being alleged.

What happens when I receive a Notice of Violation?

If you are operating in violation of one or more applicable federal, state, and/or local (SCAQMD) air pollution rules and regulations or legal requirements, each day or part of a day that you operate in violation is considered a separate violation even if only one Notice of Violation has been issued. Continuing to operate in violation may subject you to substantial civil or criminal penalties. **It is in your best interest to resolve any compliance problem immediately before you resume operation.**

What if I need to continue to operate the equipment named in the Notice of Violation?

If continued operation of equipment cited in the Notice of Violation is necessary, you may be able to obtain a variance from SCAQMD's Hearing Board. A **variance** is an administrative order that allows a company to continue operating without penalties while it takes appropriate steps to meet air pollution control requirements. Proof of specific legal circumstances must be provided before a variance can be granted. Timeliness in seeking such relief will be considered by the Hearing Board. Additional information concerning variances can be found in California Health & Safety Code §§ 42350-42359.5 and at <http://www.aqmd.gov/home/about/hearing-board>.

During a hearing for a variance, you may be represented either by yourself or by your attorney or consultant. You will have the opportunity to present evidence and testimony, and to cross-examine any SCAQMD witness.

If you fail to comply with any order of the Hearing Board, you may be subject to additional civil or criminal penalties set forth in California Health & Safety Code §§ 42400 *et seq.* and 42402 *et seq.*

How are Notices of Violation resolved?

The SCAQMD General Counsel's office reviews each alleged violation and, based on the facts, determines how best to resolve the allegation. Options available to the General Counsel's office include:

- **Minor Source Penalty Assessment Program**

Certain Notices of Violation may be eligible for resolution through SCAQMD's Minor Source Penalty Assessment Program if they are issued to a minor source or for violations other than emitting air toxics or creating a

public nuisance involving injury or property damage.

If your case is handled by this program, you will receive a letter or phone call from an investigator in the SCAQMD General Counsel's office offering to settle your violation. Settlement terms usually call for a penalty payment and written proof of current compliance. The investigator's name and telephone number are included in the initial settlement letter in the event you would like to discuss the case.

Be prepared to describe any facts about the violation that you believe SCAQMD should know in considering your case. Sharing your knowledge of the facts, possible causes for the violation and plans to avoid future violations will help the investigator arrive at an appropriate disposition. **Be sure to respond by the date indicated in the letter to avoid further legal action.**

If the Minor Source Penalty Assessment Program fails to result in a settlement, your Notice of Violation may be referred to an SCAQMD attorney and handled under the procedures for Civil Prosecution or resolved through a Small Claims Court.

- **Civil Prosecution**

If your case is handled as a civil matter, it will be reviewed by an attorney from the SCAQMD General Counsel's office, who will typically make first contact with you through a letter that asks for information about your case. If the allegations in the Notice of Violation cannot be informally resolved, the SCAQMD is authorized to file a civil lawsuit in court to recover civil penalties. In cases involving serious harm or danger, however, SCAQMD may immediately commence a legal action for civil penalties and a court-ordered injunction. A **mandatory injunction** is a court order compelling a person and/or company to take specific action. A **prohibitory injunction** is a court order compelling a person and/or company to refrain from taking a specific action. Injunctions, which may even lead to shutting down a business, may be sought by SCAQMD to prevent continuing or serious violations or damages from occurring.

- **Criminal Prosecution**

If SCAQMD determines that criminal prosecution is appropriate, the case will be referred to the appropriate state or federal law enforcement agency. That agency will determine if criminal prosecution is warranted.

Civil and Criminal Penalties

Penalties are determined by California Health & Safety Code §§ 42400 *et seq.* and 42402 *et seq.*

To whom it may concern:

This letter determines the disposition of the waste shipment which activated the radiation alarm.

Driver: Javier Valencia

I.D. Number of truck: City of L.A. Truck # 36377, License Plate # 1494414

Date and time the truck arrived at waste disposal: 4/10/25 @ 3:14 pm

The waste load identified above is authorized to be buried as normal waste. The authorization is for this waste load only. Dispose of the waste directly into a landfill. **Do NOT mix or transfer waste prior to disposal.**

The waste load identified above was surveyed and the radioactive material was identified, and taken into custody by LA County Public Health.

The contents of the waste load identified above was surveyed and found to contain no radiation above background levels and is authorized to be disposed as normal waste.

Disposal Facility (Site) Inspection Report (52)
Sunshine Canyon City/County Landfill (19-AA-2000)
3/31/2025

Inspection Information

Inspected By: Sunshine Canyon Landfill **Local Inspection ID:**
Inspection Date: 3/31/2025 **Time In:**
Inspection Type: Periodic **Time Out:**
Inspector: George Kasikarin, SCL-LEA **Inspection Duration:**
Operator: Browning-Ferris Industries of California, Inc.
Received By:
Also Present (Name):

Facility/Activity Information

Enforcement Agency: Sunshine Canyon Landfill **SWIS Number:** 19-AA-2000
Jurisdiction
Facility: **Sunshine Canyon City/County Landfill**
14747 San Fernando Road, Sylmar
Sunshine LF (in Los Angeles County), CA 91342
Activity: Solid Waste Landfill
Operational Status: Active **Regulatory Status:** Permitted
Land Owners(s):
Browning-Ferris Ind. Of Calif., Inc.

The above facility was inspected for compliance with applicable sections of Division 30 of the Public Resources Code (PRC) and Title 14 and Title 27, California Code of Regulations (CCR).

No Violations

Areas of Concern

27 CCR 20921 - Gas Monitoring and Control

- (a) To provide for the protection of public health and safety and the environment, the operator shall ensure that landfill gas generated at a disposal site is controlled in such a manner as to satisfy the following requirements:
- (1) The concentration of methane gas must not exceed 1.25 percent by volume in air within any portion of any on-site structures.
 - (2) The concentration of methane gas migrating from the disposal site must not exceed 5 percent by volume in air at the disposal site permitted facility boundary or an alternative boundary approved in accordance with Section 20925.

Disposal Facility (Site) Inspection Report (52)
Sunshine Canyon City/County Landfill (19-AA-2000)
3/31/2025

The compliance perimeter gas probes on the city and the county sides were monitored during this inspection period. All perimeter probes were either non-detect for methane gas, or below 1%, by volume, except for probes: 205R-C @ 1.9%, 205R-D @ 2.7%, 245-B @ 4.6% and 245-C @ 1.4%. Compliance Wells #205R and #245 continue to be monitored for changes in methane gas concentration as of the end of this observation period.

27 CCR 20830 - Litter Control

Litter shall be controlled, routinely collected and disposed of properly. Windblown materials shall be controlled to prevent injury to the public and personnel. Controls shall prevent the accumulation, or off-site migration, of litter in quantities that create a nuisance or cause other problems.

Scattered litter was noted around the southern portion of the site, with more litter concentration in the South City area on the steep side slopes, the trees and hillsides to the south and near the entrance of the landfill.

No litter was observed going over the ridgeline and leaving the landfill property line during this observation period. The operator brought in additional crew to pick up the scattered litter and a significant amount of the litter has been removed from areas where it is retrievable. At this time, there are still areas, both retrievable and access-challenged areas with litter that requires more work. Windblown materials need to be better controlled to prevent the accumulation and off-site migration of litter. In the future, litter needs to be better controlled to prevent windblown materials from getting into the steep side slopes and/or leaving the site where it is irretrievable.

Inspection Report Comments

This report is a compilation of the SCL-LEA staff observations for the month of 2025 March.

Weather conditions were mostly cloudy and cool with a few days of rain during this observation period. The landfill received approximately 2.5 inches of accumulated rainfall during the month of March.

On March 12th, Mr. Ivan Palenyy from CalRecycle, conducted his 18-month State inspection of the Sunshine Canyon Landfill pursuant to the Public Resources Code (PRC), Section 43220. Mr. David Thompson, the Program Manager for the SCL-LEA, Ms. Lilit Baghumyan, SCL-LEA and myself were also present for the State inspection. Violations were cited for methane gas exceedance at compliance probe P-245-B; an Area of Concern was also noted for Litter Control by Mr. Palenyy. The SCL-LEA has since re-monitored Well P-245 and found all of the probes to be below the State's 5% methane gas limit at the permitted facility boundary, as of the end of this observation period.

Two working faces were in use in the CC4-Part 4B/C & CC5 areas.

Disposal Facility (Site) Inspection Report (52)
Sunshine Canyon City/County Landfill (19-AA-2000)
3/31/2025

The spotters were directing traffic during this observation period.

The water trucks and sweepers were in use for dust control.

The portable water-atomizing cannons were in use. Misters were also in use on the perimeter fences and along the haul road for odor control.

The load checks were conducted during this observation period.

There was adequate lighting during the hours of darkness during this observation period.

The construction of the liner-anchoring berm near the front of the landfill continued during this observation period. The construction did not cause significant interference with the normal traffic flow in and out of the landfill, or caused on-site safety hazards. Spotters were present when necessary and road signs were posted and visible to the drivers on the current haul road, as of this observation period.
