

July 23, 2025

Mr. Dave Thompson
SCL – LEA Program Manager
5050 Commerce Drive
Baldwin Park, CA 91706

**Subject: June 2025 Monthly LEA Report (Revised) (MRMP 46, 96, 119 & 125)
Sunshine Canyon Landfill, SWFP No. 19-AA-2000**

Mr. Dave Thompson:

Pursuant to the self-monitoring report program requirements detailed on pages 3-4 of the Sunshine Canyon Landfill (SCL) Solid Waste Facilities Permit (SWFP), the following information is provided to the LEA for the month of June 2025. This is a revised version to include the revisions made to the monthly tonnage quantities of imported clean soils into the facilities during the month the June.

Condition 16.a. – Types & Quantities of Non-Hazardous Waste Received

The attached copy of the monthly activity report includes a daily and weekly breakdown of waste tonnages received on site.

Condition 16.b., MRMP 91, Q-B.5.b – Number and Types of Vehicles Facility is Using

The attached copy of the monthly activity report includes the type and number of vehicles that we use on the facility on a daily and weekly basis.

Condition 16.c. – Results of the Hazardous Waste Load Checking Program

The types and quantities of hazardous waste and other prohibited waste found in the waste stream is outlined below. All prohibited wastes are removed from the disposal area, quarantined in a designated location, and disposed in accordance with applicable requirements. The following is a list of prohibited waste found during the month:

Prohibited Waste	Quantity	Units	Disposition
Paint Related	17	Gallon(s)	Hazardous waste TSDF
Oil Related	13	Quart(s)	Hazardous waste TSDF
Batteries	30	Each	Hazardous waste TSDF or E-waste Recycler
Electronics	443	Each	E-waste Recycler

Construction and other Chemical Compounds	40	Gallon(s)	Hazardous waste TSDF
Containers with Residuals	0	Each	Hazardous waste TSDF
Aerosols*	277	Each	Hazardous waste TSDF

Condition 16.d., Q-B.5.c – Reports of all Special or Unusual Occurrences

The attached copy of the Monthly Log of Special Occurrences includes a detailed description of the incident and response actions taken.

Condition 16.e., Q-C.2, IMP X.B.7 & IMP X.B.6 – Compliance Summary

There were no calls from private citizen caller complaints through the Sunshine Canyon 24-hour hotline in June 2025. A copy of the hotline call log is attached.

Condition 16.f. – Record of Receipt of Violation

SCL received 1 NOV for the month of June 2025.

Condition 16.g., MRMP 34a-d – Results of Landfill Gas Monitoring & Control

The 2025 First quarter 1150.1 Monitoring Report was submitted to SCAQMD on April 15th, 2025.

The perimeter probes are required to be read monthly, in accordance with Rule 1150.1. The results of the monthly probe monitoring showed readings of 0% (measured as methane) with the following exceptions:

Perimeter Probe	Date Monitored	Readings %CH ₄	Notes
P218R-B	6/24/2025	1.1	
P222-E	6/24/2025	0.5	
P205R-C	6/26/2025	2.1	
P205R-D	6/26/2025	3.5	
P245-B	6/26/2025	5.6	
P245-C	6/26/2025	1.6	
P245-D	6/26/2025	1.7	

Condition MRMP 109, CUP 48 – Daily Neighborhood Litter Survey

Daily Litter Survey – June	Quantity of Bags & Other Items
Week One	33
Week Two	25
Week Three	27
Week Four	17
Week Five	9

Condition MRMP 53 – Groundwater Monitoring

The Groundwater and Waste Disposal Monitoring Report for the Second Semi-Annual Monitoring Period of 2024 (RWQCB Facility Global ID No. L10006014618) was submitted on February 14th, 2025. This report will be available on the Water Board's Database, GeoTracker, at <https://geotracker.waterboards.ca.gov/>, or on Sunshine Canyon Landfill's website at www.sunshinecanyonlandfill.com.

Condition Q-C.10. d.8, CUP 77 – Alternative Fuel

For the month of June, the Fuelman Fleet Statement Report summary is provided below. A copy of the detailed Fuelman Fleet Statement Report is provided in the activity report.

Alternative Fuel – June 2025	Quantity of E-85 Fuel Used
1,089.245	0

LEA Monthly Inspection Report

The LEA Monthly Inspection Report for May and June are included as an attachment to this report. These reports include a detailed description of site observations made by the LEA.

Should you have any questions regarding the information provided in this report please feel free to contact me directly at (661) 236-4781 or at **Ozamorano@republicservices.com**

Sincerely,

Bryan Zamorano

To whom it may concern:

This letter determines the disposition of the waste shipment which activated the radiation alarm.

Driver: Luis Arroyo

I.D. Number of truck: Compton-Ecology Transfer Truck # 1714 Trailer 4P # 4PF3488

Date and time the truck arrived at waste disposal: 6/6/25 @ 12:20 pm

The waste load identified above is authorized to be buried as normal waste. The authorization is for this waste load only. Dispose of the waste directly into a landfill. **Do NOT mix or transfer waste prior to disposal.**

The waste load identified above was surveyed and the radioactive material was identified, and taken into custody by LA County Public Health.

The contents of the waste load identified above was surveyed and found to contain no radiation above background levels and is authorized to be disposed as normal waste.

Detailed Description of Occurrence:

On Friday June 6th, a contractor of Republic, Landmarc Environment Systems (LES) employee was involved in an excavator "tip over" incident at Sunshine Canyon Landfill.

The investigation of this incident is in its earliest stages; but below is the information available to us thus far. The employee involved is an experienced operator who is current on his operator safety training, having received a formal update on operator excavation and trenching best practices in January 2025. Our current understanding of the incident is that the excavator was idling near the edge of an excavated area when the ground beneath gave way, causing the excavator to tip onto its side. The operator was able to free himself from the cab with the assistance of other LES employees. He was driven to a local hospital by LES personnel, then treated and released with minor injuries.

Actions taken to mitigate this occurrence:

The LEA was notified.

SCL Special Occurrence - Excavator Tip-Over Incident

From Downey, Kate <KDowney@republicservices.com>

Date Tue 6/10/2025 10:10 AM

To david.thompson <david.thompson@lacity.org>; George Kasikarin <george.kasikarin@lacity.org>; Karen Gork <kgork@ph.lacounty.gov>; Megan Lee <megan.lee@lacity.org>; Lilit Baghumyan <lbaghumyan@ph.lacounty.gov>

Good Morning,

On Friday June 6th, a contractor of Republic, Landmarc Environment Systems (LES) employee was involved in an excavator “tip over” incident at Sunshine Canyon Landfill. (Please note that a text message notification was provided on the day of the incident, and this email serves as a follow-up to the broader SCL-LEA).

The investigation of this incident is in its earliest stages; but below is the information available to us thus far. The employee involved is an experienced operator who is current on his operator safety training, having received a formal update on operator excavation and trenching best practices in January 2025. Our current understanding of the incident is that the excavator was idling near the edge of an excavated area when the ground beneath gave way, causing the excavator to tip onto its side. The operator was able to free himself from the cab with the assistance of other LES employees. He was driven to a local hospital by LES personnel, then treated and released with minor injuries.

Additional investigation will be ongoing to better determine the root cause which will be performed by Republic, LES leadership and safety professionals. As more information becomes available, it will be shared with this group. If you have any questions at this time, please don't hesitate to reach out.

Thank you,
Kate

☐ Presence of Hazardous Waste

☐ Injury

☐ Flooding

☒ Other Unusual Occurrences

☐ Landslide

Detailed Description of Occurrence:

Thursday, 6/12/2025, around 6:30 AM, it was observed that a leachate conveyance pipe in CC-4PA had been damaged and started to leak. The operations team worked with SCS to pinch and replace the line. A vacuum truck was utilized to remove any leachate that exited the pipe.

The damaged line was replaced today, and any leakage of leachate has stopped.

Additionally, no leachate made its way off-site.

Actions taken to mitigate this occurrence:

The LEA was notified.

Subject: Sunshine Canyon Special Occurrence - Radiation Load

Good morning,

On Friday, 6/20/25, at 1:59 PM Sunshine Canyon Landfill received a radiation load from the City of L.A. West Valley Transfer Station.

The load has been quarantined and is awaiting approval for burial from the LA County Department of Public Health Radiation Management Division.

If there are any questions please do not hesitate to reach out.

Best,
Jacob

Detailed Description of Occurrence:

Wednesday, 6/25/25, a heavy equipment accident occurred involving a third party contractor's crew during preparation for drilling a landfill gas well. Tragically, this accident resulted in a fatality of an employee of the third party contractor. The landfill operation was subsequently shut down for the remainder of the day, and has resumed operations this morning, though drilling activities remain temporarily suspended. Cal OSHA is currently conducting an investigation into this incident.

Actions taken to mitigate this occurrence:

The LEA, LAPD, LAFD, and CalOSHA were notified.

Disposal Facility (Site) Inspection Report (52)
Sunshine Canyon City/County Landfill (19-AA-2000)
5/31/2025

Inspection Information

Inspected By: Sunshine Canyon Landfill **Local Inspection ID:**
Inspection Date: 5/31/2025 **Time In:**
Inspection Type: Periodic **Time Out:**
Inspector: George Kasikarin **Inspection Duration:**
Operator: Browning-Ferris Industries of California, Inc.
Received By:
Also Present (Name):

Facility/Activity Information

Enforcement Agency: Sunshine Canyon Landfill **SWIS Number:** 19-AA-2000
Jurisdiction
Facility: **Sunshine Canyon City/County Landfill**
14747 San Fernando Road, Sylmar
Sunshine LF (in Los Angeles County), CA 91342
Activity: Solid Waste Landfill
Operational Status: Active **Regulatory Status:** Permitted
Land Owners(s):
Browning-Ferris Ind. Of Calif., Inc.

The above facility was inspected for compliance with applicable sections of Division 30 of the Public Resources Code (PRC) and Title 14 and Title 27, California Code of Regulations (CCR).

Violations

27 CCR 20921 - Gas Monitoring and Control

(a) To provide for the protection of public health and safety and the environment, the operator shall ensure that landfill gas generated at a disposal site is controlled in such a manner as to satisfy the following requirements:

- (1) The concentration of methane gas must not exceed 1.25 percent by volume in air within any portion of any on-site structures.
- (2) The concentration of methane gas migrating from the disposal site must not exceed 5 percent by volume in air at the disposal site permitted facility boundary or an alternative boundary approved in accordance with Section 20925.

Disposal Facility (Site) Inspection Report (52)
Sunshine Canyon City/County Landfill (19-AA-2000)
5/31/2025

The compliance perimeter gas probes on the city and the county sides were monitored during this inspection period. Probe 245-B had a 6.1%, by volume, methane gas concentration reading at the time of the inspection. Two independent gas monitors were concurrently used at the time of the inspection and both gas monitors received similar reading results.

The remaining perimeter probes were either non-detect for methane gas, or below 1%, by volume, except for probes: 205R-C @ 1.3%, 205R-D @ 3.4% and 245-C @ 1.9%. Compliance Wells #205R and #245 continue to be monitored for changes in methane gas concentration as of the end of this observation period.

On May 23, 2025, the operator submitted a Gas Remediation Workplan to the SCL-LEA for the 2025 March methane gas exceedance at the perimeter probe 245-B.

The operator has been implementing their proposed corrective actions of:

1. Additional tuning of LFG extraction wells located in the area.
2. Design and installation of new LFG extraction wells in the area of the probe.
3. Tuning and monitoring of new LFG extraction wells for a 60-day period.
4. Installation of a soil vapor extraction well in the area of the probe if elevated methane persists.

The operator was requested to submit an update to the SCL-LEA on the stages in development of their corrective actions plan to address the methane gas exceedance at probe 245-B.

No Areas of Concern

Inspection Report Comments

This report is a compilation of the SCL-LEA staff observations for the month of 2025 May.

A Notice of Violation (NOV) was cited for methane gas exceedances at Probe 245-B, which is one of the compliance probes at the disposal site permitted facility boundary on the West side of the landfill.

Weather conditions were mostly cloudy and mild with a few warm days toward the end of the month for this observation period.

Two working faces were in use in the CC3-Part A/B & the new CC5 areas.

The spotters were directing traffic during this observation period.

The water trucks and sweepers were in use for dust control.

Falconer and pyrotechnic shot launchers were in use as bird deterrents during this observation period.

Disposal Facility (Site) Inspection Report (52)
Sunshine Canyon City/County Landfill (19-AA-2000)
5/31/2025

The portable water-atomizing cannons were in use. Misters were also in use on the perimeter fences and along the haul road for odor control.

The load checks were conducted during this observation period.

The construction of the liner-anchoring berm near the front of the landfill was near completion. An alternative access haul road by the front of the landfill was open for use during this observation period. Spotters were present to direct truck traffic to their appropriate destinations.

The construction for the lining of the next cell is underway. The construction did not cause interference with the normal traffic flow in and out of the landfill, or caused on-site safety hazards, as of this observation period. Road signs were posted and visible to the drivers on the current haul road.

Disposal Facility (Site) Inspection Report (52)
Sunshine Canyon City/County Landfill (19-AA-2000)
6/30/2025

The compliance perimeter gas probes on the city and the county sides were monitored during this inspection period. Probe 245-B had a 5.5%, by volume, methane gas concentration reading at the time of the inspection. Two independent gas monitors were concurrently used at the time of the inspection and both gas monitors received similar reading results.

The remaining perimeter probes were either non-detect for methane gas, or below 1%, by volume, except for probes: 205R-C @ 2.1%, 205R-D @ 3.5%, 245-C @ 1.6% and 245-D @ 1.7%. Compliance Wells #205R and #245 continue to be monitored for changes in methane gas concentration as of the end of this observation period.

On May 23, 2025, the operator submitted a Gas Remediation Workplan to the SCL-LEA for the 2025 March methane gas exceedance at the perimeter probe 245-B.

The operator has been implementing their proposed corrective actions of:

1. Additional tuning of LFG extraction wells located in the area.
2. Design and installation of new LFG extraction wells in the area of the probe.
3. Tuning and monitoring of new LFG extraction wells for a 60-day period.
4. Installation of a soil vapor extraction well in the area of the probe if elevated methane persists.

As of this day, installation of new LFG extraction wells has been suspended throughout the site until further notice due to the fatality incident that occurred on 6-25-25.

The operator was requested to submit an update to the SCL-LEA on the stages in development of their corrective actions plan to address the methane gas exceedance at probe 245-B.

Areas of Concern

27 CCR 20700 - Intermediate Cover

(a) Compacted earthen material of at least twelve (12) inches shall be placed on all surfaces of the fill where no additional solid waste will be deposited within 180 days to control vectors, fires, odors, blowing litter, and scavenging.

During this observation period, spot areas of tracked-in trash and litter were noted around the CC4-P2 and P3 intermediate cover zones in the county portion of the landfill. The LEA discussed this issue with the operator, who provided a schedule for fully re-covering these spots. The operator has imported soil for those repairs and to reinforce the intermediate cover by compacting the side slopes as part of their

Disposal Facility (Site) Inspection Report (52)
Sunshine Canyon City/County Landfill (19-AA-2000)
6/30/2025

winterization plan. However, some sections still require more thorough coverage.

The operator must ensure that intermediate cover is properly maintained throughout all seasons.

Inspection Report Comments

This report is a compilation of the SCL-LEA staff observations for the month of 2025 June.

On 6/25/2025, a heavy equipment accident occurred involving a third party contractor's crew during preparation for drilling a landfill gas well. Tragically, this accident resulted in a fatality of an employee of the third party contractor. The landfill operation was subsequently shut down for the remainder of the day, and has resumed operations on 6/26/2025, though drilling activities remain temporarily suspended. Cal/OSHA is currently conducting an investigation into this incident.

Weather conditions were sunny and warm for this observation period.
Two working faces were in use in the CC3-Part B & the new CC5 areas.
The spotters were directing traffic during this observation period.
The water trucks and sweepers were in use for dust control.
The bird control measures were in place to control the birds during this observation period.

The portable water-atomizing cannons were in use. Mistlers were also in use on the perimeter fences and along the haul road for odor control. The load checks were conducted during this observation period.

The construction of the flooring for the final cell is underway. The construction did not cause interference with the normal traffic flow in and out of the landfill as of this observation period. Spotters were present to direct construction truck traffic when needed. Road signs were posted and visible to the drivers along the current haul road.
